

These three can be placed
at the same time, in an
Automatic Refrigerator

No Mixing of Food Flavors In The Automatic

If you will notice the cut of the Automatic, you will see that placed side by side are custard, foul and milk. You can place any two or more different kinds of food together in the Automatic, and one will not taint from the other. In order to obtain this, there has got to be a circulation of air, and this is what we guarantee the Automatic to have. By having this automatic circulation of air you are bound to save an untold quantity of ice. In 1909 we sold a number of these boxes to people who will tell you that their ice bills were lower than they had ever been before, and they had used several of the so-called modern make refrigerators. Another important point about the Automatic, is the water cooler. You would not know how to appreciate a water cooler in an ice box, until you have used one. If we were not positive that we could show you the very best refrigerator that is made, we would not be wasting space telling you of its merit. We have cheaper refrigerators in stock than the Automatic. We want you to call and inspect our line. You will be welcome.

Pinchot's Move Worries Washington Officials

Washington, D. C., Mar. 22.—Washington woke up to the fact Tuesday that Gifford Pinchot, whom President Taft recently caused to be deposed from the position of chief forester, of the United States, was on the ocean, already four days out, on the steamer President Grant. He is on the way to meet ex-President Theodore Roosevelt. Mr. Pinchot is due at Hamburg Monday; Colonel Roosevelt is to arrive at Naples on the following Saturday. It is the impression, generally accepted, that Mr. Roosevelt cabinet for Mr. Pinchot.

The widely current rumor here is that Mr. Pinchot goes to meet the returning traveler in compliance with a summons received by cable Friday. Nobody in a position to know would either confirm or deny this part of the story; there is no disposition to deny that Mr. Pinchot's principal errand abroad is to meet Mr. Roosevelt.

It is to be taken for granted that the ex-President will receive from the deposed chief forester, with whom he was on close terms, his first direct information bearing on the Ballinger-Pinchot controversy from any of the principals in that dispute. It was rumored here today that Senator Root, a member of the investigating committee, and Secretary of State in the Roosevelt cabinet had written to Mr. Roosevelt at Khartoum on the subject. Senator Root would not talk about the matter and no confirmation of the rumor was obtainable from any source. If it were true, it might afford at least a partial reason for the supposed cablegram from Mr. Roosevelt to Mr. Pinchot.

Mr. Pinchot's friends here scoff at the suggestion that he would quit the investigation of the controversy in which he is so deeply concerned, on the eve of Secretary Ballinger's going on the stand, in order to seek, uninvited, an interview with the ex-President.

Mr. Pinchot left Washington Friday night and next day sailed from New York for Europe. His absence on Saturday from the Ballinger-Pinchot hearing, at which he has been a constant attendant, attracted little attention, though he had not intimated to his associates there that he intended to go away for a long trip.

Thomas R. Shipp, secretary of the National Conservation association, of which Mr. Pinchot is president, said today that the former forester had gone to Europe for a "much needed vacation." He said Mr. Pinchot's side of the case had practically all been presented, and he felt it was an opportune time for him to go away. He admitted Mr. Pinchot had made up his mind about the trip rather suddenly, but he said he knew nothing of the reported Roosevelt-Pinchot meeting. He did not attempt to deny that Mr. Pinchot might see his former chief before he returned to the United States. Later Mr. Shipp issued the following formal statement:

"Mr. Pinchot sailed for Europe on the President Grant of the Hamburg-American line, last Saturday afternoon. He will go to Copenhagen, Denmark, where he will visit his sister, Lady Johnston. Mr. Pinchot has been working hard and felt that a vacation for a while would do him good. I do not

"THE THIRD DEGREE" AT AUDITORIUM TONIGHT

Charles Klein, author of "The Third Degree" and "The Lion and the Mouse," makes no secret of the manner in which he endows his characters with virility and life. He admits frankly that he takes them from real life. He graciously acknowledges that "Mr. Brewster," the impressive and cogent "constitutional lawyer" in his greatest success, "The Third Degree," is none other than Joseph H. Choate, the well known New York lawyer, and late United States minister to England. Then too, it is an open secret that Annie Jeffries, the heroine in the same play, has her prototype in a young woman employed in a New York paper-box factory, who was discarded by her wealthy husband because she was not sufficiently polished for his set.

As for the gruff and unrelenting police captain, his double can be located in almost any large city of America. Mr. Klein says that whenever he sketches a character from life, it lends a tinge of nature to the play which a mere creation of the dramatist's brain cannot possibly accomplish. The characters in "The Third Degree" stand out as human beings for the very simple reason that they are one and all transplanted to the dramatic stage from the broader and more complex stage of human existence. It would indeed be difficult to conceive a more charming, convincing and natural heroine for any play than Annie Jeffries, the splendid specimen of young American womanhood in Mr. Klein's justly successful masterpiece, "The Third Degree."

Henry B. Harris will present his best cast of dramatic players in this play at the Auditorium tonight.

The company includes Paul Everton, Fernanda Eliseo, E. A. Eberle, Alfred Moore, T. L. Coleman, Ralph Ramsey, Francis Bonn, H. H. Forseman, A. H. Symmons and Margaret Drew.

BASEBALL SEASON WILL OPEN NEXT SUNDAY

The warm days of the last few weeks has set the baseball bug in Vinita, to going, and on next Sunday the opening game of the season will be played. The Frisco team of St. Louis will be the opponents of the local team in the opening game.

The Frisco team is an old rival of Vinita and they have written that they are coming strong with the intention of walloping the locals to a queen's taste. The locals have a lot of good material and a fast team will be called for the game Sunday. It is likely that Lynn the whirlwind twirler, of Oswego, will officiate on the slab for Vinita while Merton Raines will take care of the receiving. This promises to be a first class exhibition of ball playing and will be worth the price of admission.

Card of Thanks.
We wish to thank our many friends for the kindness shown us during our recent bereavement.
M. J. Spaulding, Family and Brother.

SHACKLEFORD STRONG IN DENUNCIATION OF CANNON

Washington, D. C., Mar. 22.—In connection with the consideration of the pension appropriation bill, one of the most bitter personal attacks upon Speaker Cannon thus far, was made in the house Tuesday by Representative Shackleford of Missouri.

"I am not talking about Cannonism," shouted Mr. Shackleford, looking straight into the eyes of Speaker Cannon who occupied a seat on the republican side. "I am talking about Cannon."

As Cato had ended his speeches by declaring that Carthage must be destroyed, Mr. Shackleford said that for years he had been declaring that Cannonism must be destroyed, if republicanism and representative government in America were to live.

"Come on Murdock let us fight it out on the principles that lie at the foundation of free government," shouted Mr. Shackleford, gesticulating as though defying the power he was opposing. He insisted that the bill to pension members of the state militia organizations that took part in the civil war on the side of the union would have been passed had it not been for the influence of Mr. Cannon in preventing its consideration.

TO MAKE TEST OF CLAYS AND SHALES

The Oklahoma Geological survey is to conduct a series of tests on the clays and shales of the state at the government testing plant at Pittsburg, Pa., commencing about May 1st. It is especially desired that as many samples as possible from the oil and gas region of the state be secured.

The tests are very complete, the clays being made up and burned as in actual practice. A report of the tests is sent to the parties sending in the samples and is later to be published in a bulletin which will have a large circulation throughout the country.

The only expenses to those sending in samples is the payment of the freight to Pittsburg, Pa., on 100 pounds of material.

Anyone desiring to take advantage of these tests, should write at once to L. C. Snider, chemist of the Oklahoma Geological Survey, Norman, Okla., for directions for collecting and shipping the samples.

Lillis Takes Vacation.

By Associated Press.
Kansas City, Mo., Mar. 23.—Jere S. Lillis, president of the Western Exchange bank, who was assaulted by John P. Cudahy, left today on an indefinite vacation. Friends decline to state where he is going. The physicians said the banker might go abroad.

Oxford Wins From Cambridge.

By Associated Press.
Putney, England, Mar. 23.—Oxford defeated Cambridge in the annual eight-oared rowing race, over the championship course from Putney to Mortlake, in hallow fashion today, by three lengths. Time, twenty minutes, fourteen seconds.
